

The Student Learning Journey

Students show up to class confident and ready to learn.

Answer AI-generated practice questions throughout the Bookshelf® etext.

Focus on the material students still need to learn.

AI, Meet Learning Science.

Bookshelf CoachMe is based on the Doer Effect, a learning science principle which proves practice has six times the effect on learning than reading. It's simple: doing practice causes learning.

Receive immediate feedback on the answers

Based on question feedback, students see what they already know.

Retake any questions that were wrong.

Spotlight on: **AI Done Right**

Practice questions are automatically generated using VitalSource's AI and Natural Language Processing technology, and are aligned to the core etext content.

Spotlight on: **Doing Practice Causes Learning**

Bookshelf CoachMe practice question types include fill-in-the-blank, matching, free response, and multiple choice.

The Bookshelf you know and love, just better.
