VitalSource®

Students Win with Inclusive Access Programs

Inclusive Access (IA) is a course-by-course delivery model that ensures students are ready to learn on day one with the course materials they need to succeed at the lowest digital price.

Our experts say these are why IA programs make a difference:

1 Improve access and affordability across higher education

2 Impact academic outcomes and persistence

3 Reduce costs for students

4 Protect academic freedom for students, instructors, and institutions with easy opt-out

5 Ensure access for students to high-quality course materials – available anytime, anywhere, online, or offline

6 Powered without collecting, retaining, or selling any student data

To learn more about Day-One Access Programs, read our Annual Course Materials Report here.

Affordability & Access
